

Dear respected,

Complements of the season and greetings to you and your family in the name of God. I am Mrs. Florence Decca an aging widow of 45 years old suffering from Neck Cancer. I am from Sierra-Leone but lived in Abidjan Cote d'Ivoire here managing my late husband factory before I sold it out because of my ill health. I could not even be able to write you this email. It is with the assistance of my only son Ubanna, 17 years old boy that I am able to write you today.

I have some funds \$7,500,000.00 Million US dollars which I inherited from my late husband. I needed you being a very honest and God fearing person to receive this money in your account and use part for the well-being of the poor in your country or elsewhere in the world and part you will safeguard for my son Ubanna to have a better life in the event of my death. I found you as a person that can be trusted and i decided to contact you if you may be willing and interested to use this fund as i directed below.

I do not know you in person but I have summoned up courage to contact you believing God that you will use this fund with all sincerity.

I am willing to offer 15% of this total sum and another 5% for any expenses which you may incur in this transaction. 40% for the poor and 40% you will invest for my son and assist him to come over to meet you in your country to further his education.

If you are interested, Let me know in your mail reply immediately for more details and directives. Any delays in your replying will give me room to look for another.

Warmest regards,

from your beloved sister,

Mrs. Florence Decca and son Ubanna.

ONE WITH LOVE AND BEST WISHES!!!
